EXPERIENCE

Tech Lead and Senior Backend Engineer

Apr 2022 – Present

Silicon Overdrive · Cape Town

- Tech Lead on SAWIS BI. Coordinate a PM, senior frontend, and senior backend. Monthly Mapper to MySQL; tables over two million rows. When a job fails I trace the data path and restore the month.
- Client owner for Indawo: spec through production, including a Docker restore after the on-prem host failed.

Backend / Software Engineer

Jun 2018 – Mar 2022

RogerWilco · Cape Town

- Production Laravel, Symfony, and custom PHP on Ubuntu and AWS. RBAC member dashboard and live JSE graphs.
- Owned WordPress and Drupal modules. Production support: DNS/TLS, security reviews.

ALSO

Indawo

Client owner — production application

Client-owned production app. Docker restore after host failure. Spec through sign-off.

Freelance AWS fleet

Freelance — AWS as code

Freelance Terraform for a production PHP fleet in af-south-1. Separate from Overdrive. Paused.

Homelab

Practice — streaming, k3s, uptime

Private streaming stack on Linux and Docker. Homelab k3s/k3d — practice, not production Kubernetes.

STACK

PHP / Laravel · MySQL · Mapper sync · Linux · Docker · AWS DOP-C02 · CodePipeline · Terraform · k3s homelab · Cursor / Grok / Claude / Codex
